- NOTES FOR PRODUCTION
- Layers: background, leaf pattern, florals, logo, QR, text, dieline. Everything is vector except the leaf pattern (2048 px images, above 850 ppi at size).
  - Print as sRGB on digital, or convert to your press profile. CMYK values above are a guide for matching.
  - The glue flap carries plain cream only. Keep it free of lamination or varnish.
  - QR (0.85 in) opens [nairaflore.com/jewellery](https://nairaflore.com/jewellery). Keep its cream quiet zone and do not scale it below 0.75 in.
  - The dieline is reconstructed from the Kraftix 6 × 9.5 × 2 template. Align the artwork to your own die before cutting.
  - Need to retype text? Install Jost and Cormorant Garamond (free, Google Fonts), or use the PRINT-READY file where text is already outlined.
